## **“With You for a Healthy Life”**

PRP Pharmaceuticals Health Products is an Istanbul-based pharmaceutical-pharmaceutical sector company established in 2011.

PRP Pharmaceuticals, which carries out its studies in line with providing qualified products, desires to support healthy living and treatment with its sensitivity in the use of raw materials. PRP Pharmaceuticals, which considers it an advantage for its entrepreneurs to be health professionals, prepares its products with the support of specialist physicians, pharmacists, chemists and food engineers.

With our expert team, from raw materials to formulation; Our basic principle is to produce data-based products by following academic and clinical studies and following current developments.

Since 2024, we have been producing our products in our own facilities.

In addition to the production of our own brands, we undertake all production processes of the organizations we cooperate with, from brand design to finished product.

Our company, which started its activities with Derinex dermocosmetic products, has increased its product range over the years and entered the food supplement sector with the MSL-More Support to Life brand. After implementing its own production facilities, our company continues to increase its new product studies.

Our company, which aims to produce human drugs as soon as possible, is working on some generic drug formulations.

### **Mission**

With the awareness of the value of natural resources, taking into account the needs, approaches and tendencies of the day, to provide quality products supported by scientific studies in the field of health.

### **Vision**

To be a face of the “Turkish Pharmaceutical Industry” opening up to the world.

### **Values**

Quality, trust, innovation.

OMEGA 3

# MSL OMEGA PLUS

With MSL Omega Plus, we offer you Omega-3 fatty acids that are not produced by your body. When 250 mg of EPA-DHA is taken daily, EPA and DHA contribute to the normal function of the heart. At the same time, a daily intake of 250 mg of DHA contributes to the maintenance of brain function and normal vision.\*

While making this contribution to your heart, brain and vision health, we prefer the oil of short-lived fish in our products. In this way, we take precautions against the accumulation of heavy metals in fish.

## Table of contents

Fish oil, bovine gelatin, glycerol, distilled water, lemon oil, tocopherol-rich extract (vitamin E).

## Use

For adults aged 11 years and older, it is recommended to take 1 or 2 tablets per day.

Active Ingredient	mg / 1 Softgel Capsule	%BRD

## MSL VIMEX ON KIDS

We have brought together vitamins and minerals that support the development of our children, who are the architects of our future. At the same time, we aim to support their immunity with propolis and beta glucan. We offer them reliable Omega-3 fatty acids.

### Table of contents

Beet sugar, glycerol, beta glucan (yeast-derived), l-ascorbic acid, nature-identical orange flavor, deionized water, zinc picolinate, dl alpha tocopherol, xantam gum, nicotinamide, polysorbate 80, potassium sorbate, sodium benzoate, calcium d pantothenate, cholecalciferol, retinyl acetate, manganese sulfate, pyridoxal 5 phosphate monohydrate, riboflavin, thiamine hydrochloride, (6S)5 methyltetrahydrofolate acid glucosamine salt, sodium selenite, sodium molybdate, potassium iodide, methyl cobalamin.

### Use

For children aged 4-10 years and adults, it is recommended to use 10 mL (one scoop) on a full stomach.

# MSL VIMEX MAG

Magnesium, but not an ordinary magnesium; a combination of magnesium and vitamin B6 with the highest bioavailability of proven efficacy for which clinical studies have been completed.

Magnesium and vitamin B6 contribute to the reduction of tiredness and fatigue, normal energy-yielding metabolism, normal functioning of the nervous system, and normal protein metabolism. In addition, magnesium contributes to electrolyte balance, normal functioning of muscle function, and maintenance of normal bones and normal teeth, while vitamin B6 contributes to the normal formation of red blood cells and the normal function of the immune system.\*

## Ingredients

Magnesium citrate, microcrystalline cellulose, magnesium malate, magnesium bisglycinate, polyvinyl pyrrolidone, magnesium salts of fatty acids, silicon dioxide, pyridoxal 5 phosphate.

## Usage

It is recommended to use 2 tablets a day in adults aged 11 years and over.

DIET-NUTRITION

# VIMEX FİBER COFFEE

## How about starting your day with a combination of real coffee and dietary fiber?

According to nutrition studies conducted in Turkey, our people cannot provide sufficient fiber consumption, and there is an average daily fiber deficit of 10-15 grams.

This fiber deficit; It is one of the most convenient ways to provide fiber fortified foods.

Dietary fiber is important in terms of removing harmful compounds accumulated in the intestine, lowering cholesterol by binding bile acids, controlling blood sugar levels and being a prebiotic.

Fibrous foods provide a greater feeling of satiety and cause the person to feel full for a long time. In this way, the person can be full more quickly with fewer portions.

Vimex Fiber Coffee supports you to meet your daily fiber needs while sipping your special filter coffee for your taste.

We offer you quality coffee beans ready to brew by simply roasting and grinding, but with a huge difference. Fiber support... Fibersol-2 is a dietary fiber originating in Japan. This fiber, whose clinical studies have been conducted in Japan, provides you with a feeling of satiety. In addition, it balances blood sugar, prolongs the hunger period, and provides prebiotic support.

Helps with the feeling of satiety

Increases satiety

Helps the intestines work

### Ingredients

Filter coffee (66.6), dietary fiber from natural starch (33.4).

### Usage

Add a tablespoonful (15 g) of coffee to the brewing apparatus. Add 200 mL of hot water to it, mix for 20 seconds and wait 3 minutes. You can consume it cold or hot! It is recommended to use it with a French Press

Active Ingredient	Quantity/ 15 g
Filter Coffee	10 g
Dietary Fiber (Fibersol-2)	5 g
